Assistant Director, Special Operations

12 July 1949

Assistant Director for Operations

The Use of FBIB Reports in OSO Liaison with Foreign Intelligence and Security Services

1. Reference is made to memorandum dated 27 June 1949 to AD/OSO from AD/OSO, subject as above, and to the agreement reached at a conference held on 11 July 1949 attended by Colonel Schow, OSO, Mr. Carey, OSO, Mr. Pforzheimer, Assistant General Counsel, William Harvey, OSO, and Mr. Shallcross, FBIB, on the same subject.

2. Under conditions agreed to at this conference the Office of Operations will be pleased to fulfill the request set forth in basic memorandum. It is understood that the conditions under which dissemination of FBIB material will be made are as follows:

a. OSO will make every effort to insure that FBIB reports disseminated to foreign intelligence and security services will be limited in their use by the recipient and will not be reproduced or disseminated for other than intelligence purposes.

b. All FBIB material, both restricted and unclassified, will be appropriately classified by OSO prior to dissemination.

c. All FBIB material, both restricted and unclassified, containing press or point-to-point broadcast material will not be disseminated to the country of origin of such broadcasts.

d. All FBIB material will be sanitized by OSO prior to dissemination and all references to the Central Intelligence Agency and Foreign Broadcast Information Branch will be deleted, thereby taking every precaution to insure that CIA, FBIB and the Agency's individual employees do not become involved in litigation arising from libel, copyright violation, and unfair competition through use of foreign press material which has not been purchased by us but which has been obtained through monitoring facilities.

3. Mr. William Harvey will be placed on the distribution list to receive ten copies of the USSR and Eastern Europe and Far East Daily Reports and five copies of the Western Europe and Near East and Latin America Daily Reports. He will also receive copies of FBIB publications containing basic broadcast information data.
